EXPERIENCE

Software Developer Intern

June 2025 - July 2025

ScrollAR4u Technologies Pvt. Ltd., Bathinda

- Collaborated in full-stack web development using MERN stack (MongoDB, Express.js, React.js, Node.js).
- Developed responsive user interfaces using React.js and reusable components.
- Integrated RESTful APIs to enable dynamic data exchange between frontend and backend.

PROJECTS

CHATBOT | *Python, Flask, FAISS, NLP, RAG*

- Developed a RAG (Retrieval-Augmented Generation) based University Chatbot to answer institute-related queries using LLM-powered contextual responses.
- Implemented vector embeddings and semantic search for efficient retrieval of university data using a custom knowledge base.
- Improved system reliability using query tracking, evaluation metrics, and modular architecture for maintainability.

LIBRARY MANAGEMENT SYSTEM | *MERN Stack*

- Engineered a comprehensive web application using the MERN stack (MongoDB, Express.js, React.js, Node.js) to digitalize inventory tracking and streamline book borrowing workflows for librarians and students.
- Created scalable backend RESTful API endpoints using Express.js and Mongoose to handle complex relational data, enabling efficient tracking of real-time book availability and transaction histories.
- Developed a responsive and interactive frontend dashboard using React, featuring dynamic statistical overviews and optimized user workflows tailored to specific account types.
